

# LEGO® Brick Club

## Build friendships and social skills together through the joy of building with LEGO® in BENDIGO!

LEGO® Brick Club therapy is a creative and effective evidence-based intervention that harnesses the universal appeal of Lego bricks to support the social and emotional well-being of children and adolescents.

**WHY CHOOSE LEGO® Brick Club...** Through LEGO® Based Therapy, children learn to communicate, express their feelings, learn various ways of relating to others, modify their behaviour and develop problem-solving skills.

**BENEFITS of LEGO® Brick Club...** The LEGO® System is a highly organised, systematic, and predictable toy, therefore highly motivating for children as the unpredictable and ever-changing concepts that occur during other types of free play do not exist. This very nature of the LEGO building system allows children to feel calm, regulated and engaged.

### **DURING LEGO® Brick Club children will...**

- Learn about waiting and turn taking in play and conversation
- Practice how to talk and interact with others to build and maintain friendships
- Improve teamwork and promote collaborative problem solving
- Develop fine motor and memory skills

**All sessions are implemented by Certified Facilitators of LEGO® Based Therapy**

**Total Program Cost - \$600 (6 weeks – 60 minutes – Groups of 3)**  
(Everything included – Privately funded and NDIS Self/Plan managed Friendly)

## We are currently taking enrolments for Term 3 and 4, 2024.
